## BUSINESS REASONS

- Expand our theme portfolio, we are always wanting to bring story telling to our slots. Chicken Night Fever brings that character led story that PearFiction is known for, while also having exciting mechanics we know work and players enjoy.
- We have kept our SwiftHits mechanic from Blazing Mammoth XL, we believe that these bring different experiences throughout play and occur often enough to keep players engaged.
- The players that enjoyed Blazing Mammoth XL can now come back, and play their favourite features and mechanics that they know and love.
- Players love Wilds, and our Wild feature within Free Spins offers a multiplier too, this offers even more excitement for players.
- We think this would be a good theme for winter, the lights offer a festive sort of vibe without having a complete christmas/winter theme but the rest of the game offers a party that may resonate with New Year.
- Jackpots always on screen, this helps players see what they can achieve and we've really pushed this by upping the amount of SwiftHits you can land and win with.
