BUSINESS REASONS

- Expand our theme and mechanic portfolio.
- We have looked at the math from Blazing Mammoth XL and Chicken Night Fever, needing to rework and expand on some of the more attractive elements of those games. Therefore Galactic Invaders brings the Wild Multiplier mechanic to Base Game.
- The players who enjoyed the Wild Multiplier in Free Spins now can experience that feature more often in Base Game.
- Players love Wilds, and multipliers even more. Therefore, we thought this was the correct feature to build upon, bringing in the opportunity to get a 250x multiplier.
- To bring something different to the SCI-FI genre of slots, we wanted to have a different colour palette. With the staple PearFiction vibe mixed with the classic Science/Space theme.
- The Alien theme is something PearFiction have done before, however this time we have really pushed the boat out with the style and colours of this game, we think players will enjoy something new and different.
